# Install Citrix Workspace

Download Citrix Workspace from

- <https://www.citrix.com/downloads/workspace-app/linux/workspace-app-for-linux-latest.html>

```
# as root
MYUSER="myuser"
MYPATH="/path/to/certificates/"
rpm -i /home/$MYUSER/Downloads/ICAClient-suse-21.4.0.11-0.x86_64.rpm
```

then install (possibly) required ca-certificates to /etc/pki/trust/anchors and link them into Citrix certstore

```
cp -av "/home/${MYUSER}${MYPATH}" /etc/pki/trust/anchors/
update-ca-certificates
cd /opt/Citrix/ICAClient/keystore/cacerts/
# repeat for each required certificate
ln -s /etc/pki/trust/anchors/example.crt ./example.crt
```

that should do the trick...
