nanoscopic - Mouse Click Icons

To be able to visualize mouse clicks in various documentation, I've needed some icons. To not get bothered by copyright stuff, I've created my own simple icon set.

HowTo (and sample usage)

Just open the source file with [inkscape](#) and then:

- left click  one of the icons
- in the file menu of inkscape left click  **'File'**
- now left click  **'Export PNG Image'** to open the *Export PNG Pane*
- choose export settings
- left click  **'Export'**

If you want to change the colors:

- Each icon is a group of objects, which has a transparent rectangle as background.
- To ungroup simply select an icon by left clicking  it and then press `CTRL+SHIFT+G`
- Don't forget to regroup all objects resembling an icon (including the transparent background rectangle) by selecting them and pressing `CTRL+G`.
